

Connect with the expert – video conferences

Through its network of industry professionals, IP-Unite arranges video conferences for students and their teacher. Each video conference is set up with an English speaking industry expert (LinkedIn profiles of all experts are available) and the video connection takes place on school(s) premises. The aim of the Connect with the expert service is to provide a unique opportunity for students, teachers and multiple schools to talk direct with industry recognised and experienced experts who are currently working in a specific industry sector chosen by the school. This gives students a direct, open and honest insight into the world of work in a chosen field.

Choose the connecting option

Customized connection - students pay individually to have 1:1 advice from industry practitioners (with teacher present) in school time

Multiple Classroom connections – with an industry expert (with teacher present) and a small (up to 4) group of students in school time

Exclusive Connections – teachers (up to 4) consult with an industry expert about a specific industry topic in school time

Teacher and Expert Connections: video conference between an industry expert and a teacher at a time to suit both parties

Features getting IP-Unite connected

Video conference bookings are made and confirmed 28 days in advance

Industry experts receive questions from the students/teachers/school 24 hours prior to conference

Fees for the service are £45 per hour for video conference - no extra charges

Multiples of schools can take part in a video conference which shares the cost and enables shared learning

Pre-session: briefing notes supplied

Post-session: briefing notes supplied
